

Product Code: SFBK796BK

Luckinslive 438821864

Description: 13A 2 Gang Switched Socket Outlet With Twin Type C USB (4.2A) Outlets

### General Information

|                                        |                                                                                                                                            |                                                                                                                                                                   |

### Additional Information

For cleaning / polishing of products, use only a soft, dry, clean cloth.  
The USB circuits within this socket outlet are designed to withstand insulation resistance tests at 500V.  
Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram with the relevant product.  
Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal.  
Independent Charging: 5V DC, 4.2A – USB Type C (3A), USB Type C (3A)  
Intelligent chip incorporated within the USB PCB adjusts the output according to the load connected.
